PMBOG website: www.pmbog.eu

Date: 27.07.2022, 09:00 – 14:00

Agenda

09:00 – 09:15		Check-in and Welcoming
Session 1	Introduction to PMBOG project	
09:15 – 09:30	PMBOG aims to create skills on the topic of project management (PM) using the concept of Edutainment by bringing the world of the PM and that of the Board Games.	
Dr. Alessandro Pompei		
Session 2	Introduction on PMBOG case study – Selection of Marriage ceremony as case study!	
09:30 – 09:45	Marriage is the blueprint of life for many. From board game standpoint it as a case study - presents all the elements of a project management and it is very easy to insert ironic elements in the board game to make the game more playful, pleasant, and involving among players.	
Mr. Habib Sedehi		
Session 3	Gamification of Project Management & Leadership	
09:45 – 11:30	Exemplary usage of game mechanics for management learning processes with two board game examples: “Concept” and “Magic Maze”	
Mr. Martin Wilhelm		
	a.) demonstrate how diversity of personality types in management teams work (via Concept, REPOS Production)	
	b.) demonstrate how “non-verbal” communication works while people working on the same project objective (via Magic Maze; Pegasus Spiele)	
Session 4	Introduction of the PMBOG print-and-play board game	
11:30 – 11:45	Presenting the rules, guideline, and scenario formulation of the board game as for the participants to envisage how the case study (marriage ceremony) has been gamified into a board game. And the aming session allow the participants to experience it and be fun.	
Mr. Lorenzo Maria Conti		
11:45 – 12:15		Get together & Lunch Break <i>Coffee, soft drinks and snacks are catered for participants</i>
Session 5	Playing PMBOG Board game	
12:15 – 13:45	Participant are set in different group of 4Xplayers each. They are guided through the rules and guidelines of the print-and-play board game.	
Mr. Lorenzo Maria Conti		
Session 6	Insights on development of simulation models and interactive learning environments	
13:45 – 14:00	Simulation models and interactive learning environments ultimately help in developing scenario analysis and decision-making skills by exercising in a consequence-free Project Management environment. As a result, the participants will be able to better understand the principles of Project Management (PM), its underlying dynamic structures and issues.	
Dr. Stefano Armenia
